Portfolio: www.erinskidds.com

Experienced Full-Stack Developer adept in front-end web development, Python, and AWS tools, with a proven track record of designing scalable systems and collaborating effectively across teams. Skilled in front-end development with a recent focus on backend development as well, with a commitment to delivering high-quality solutions that meet business goals.

EXPERIENCE

Full-Stack Software Engineer

Payactiv

Austin, TX
2024 – Present

- Acted as the founding mobile and frontend engineer, establishing architecture, tooling, and development standards in an environment with no prior app infrastructure.
- Collaborated cross-functionally to design and integrate C# / .NET APIs, ensuring clean contracts, efficient data flow, and production-grade reliability.
- Led the architecture and development of a greenfield React Native + Next.js monorepo, using TypeScript and Tailwind, supporting three production applications across iOS, Android, and web.
- Drove end-to-end mobile strategy, taking products from concept to App Store and Google Play publication, establishing reliable CI/CD workflows with Expo and EAS.
- Partnered directly with the SVP and CTO to define technical vision, system architecture, and early product designs, influencing long-term platform strategy from day one.

Freelance Full-Stack Engineer

Self-Employed

Austin, TX
2019 – Present

- Established and led the r/CodingHelp subreddit and Discord server, mentoring numerous individuals in JavaScript, Node.js, HTML, CSS, and SQL, fostering skill development and conducting thorough code reviews.
- Developed several Discord Bots to streamline moderation tasks for the moderators of the r/CodingHelp Discord server.
- Served as a Freelance Full-Stack Engineer for River & Reef Aquaculture, prior to assuming my current role.
- Led the comprehensive reconstruction of the TravelAgent360 website using WordPress, resulting in a notable increase in client acquisition for the platform.

Full-Stack Software Engineer

Tenderling Design

Austin, TX
2024 – 2025

- Built websites for hotel brands like Hilton using WordPress, Roots/Sage and Alpine.js
- Delivered projects under tight deadlines, quickly learning new tools and technologies.
- Translated Figma designs into fully functional websites while maintaining ADA Compliance and making sure websites remained Responsive.

Senior Front-End Software Engineer

Hometown Hero

Austin, TX
2023 – 2024

- Reduced business operating cost by migrating eCommerce platform from Shopify to Vue.js + NuxtJS
- Collaborated with the CTO and Backend PHP Developer to enhance backend plugins, aligning them with evolving business requirements during a transitional phase.

Front-End Software Engineer

The Storage Group, Inc.

Austin, TX
2023 – 2023

- Developed WordPress websites leveraging templates to meet client specifications.
- Supported Full-Stack Developers in identifying and rectifying errors on iOS and iPadOS platforms.
- Provided guidance, mentoring, and training to onboarded Front-End Developers.

Full-Stack Software Engineer

Morris Consulting Services, Inc.

Tampa, FL
2022 – 2023

- Utilized C#/CSHTML & .NET/ASP.NET to maintain and enhance the backend of all client websites and services, ensuring optimal performance and reliability.
- Conducted seamless migrations of WordPress websites utilizing Angular and Dart technologies.
- Spearheaded the reconstruction of applications from the ground up using Dart and Flutter, resulting in heightened stability and performance.
- Engineered API Tests employing C#, Angular and Dart, significantly enhancing application productivity.
